## Safe Harbor

All statements other than statements of historical facts contained in this presentation, including statements regarding our future operations and financial position, business strategy and plans and objectives of management for future operations, are forward-looking statements. In some cases, forward-looking statements can be identified by terminology such as "believe," "may," "estimate," "continue," "anticipate," "intend," "should," "plan," "expect," "predict," "potential," or the negative of these terms or other similar expressions.

This presentation includes forward-looking statements regarding future events, including but not limited to, our development of new products that will continue to help our customers transform their networks; the adoption of gigabit services; our growth drivers; the ongoing expansion of our total addressable market; the future business and financial performance of the Company; and our long-term model for revenue, gross margin, operating expenses and operating profit margin. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy and financial needs. These forward-looking statements are subject to a number of risks, uncertainties and assumptions described in our filings with the Securities and Exchange Commission ("SEC"), especially in the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of Calix's Annual Report on Form 10-K filed with the SEC for fiscal year 2013, our current reports on Form 8-K and other SEC filings, including our Form 10-Qs.

You should not rely upon forward-looking statements as predictions of future events. We cannot assure you that the events and circumstances reflected in the forward-looking statements will be achieved or will occur. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Moreover, neither we nor any other person assume responsibility for the accuracy and completeness of the forward-looking statements. Except as required by law, we undertake no obligation to update publicly any forward-looking statements for any reason to conform these statements to actual results or to changes in our expectations. You should read our SEC filings and the documents that we have filed with the SEC as exhibits to those filings, with the understanding that our actual future results, levels of activity, performance and achievements may be materially different from what we expect.

」 Non-GAAP to GAAP Reconciliation

## Non-GAAP to GAAP Reconciliation

The Company uses certain non-GAAP financial measures in this press release to supplement its consolidated financial statements, which are presented in accordance with GAAP. These non-GAAP measures include nonGAAP net income (loss) and non-GAAP basic and diluted income (loss) per share. These non-GAAP measures are provided to enhance the reader's understanding of the Company's operating performance as they primarily exclude certain non-cash charges for stock-based compensation and amortization of acquisition-related intangible assets, and non-recurring acquisition-related and other expenses, which the Company believes are not indicative of its core operating results. Management believes that the non-GAAP measures used in this press release provide investors with important perspectives into the Company's ongoing business performance and management uses these non-GAAP measures to evaluate financial results and to establish operational goals. The presentation of these non-GAAP measures is not meant to be a substitute for results presented in accordance with GAAP, but rather should be evaluated in conjunction with those GAAP results. A reconciliation of the non-GAAP results to the most directly comparable GAAP results is provided in this press release. The non-GAAP financial measures used by the company may be calculated differently from, and therefore may not be comparable to, similarly titled measures used by other companies.
